

# Safety is a default setting. Nothing should come between you and an exhilarating trial of the Warp mode. Not even an iota of doubt on safety or hygiene. We've taken care of it all.

- All the surfaces you might touch or even not touch are thoroughly sanitized regularly.
- Temperature check, face masks, gloves and hand sanitization is mandatory for anyone entering the Ather Space premises.
- If you don't have a mask or a pair of gloves, we'll provide you with one.
- Nobody, be it our employee or a customer, with a body temperature above 99 F will be allowed inside the premises.
- Our personnel will maintain a distance of 2-3 feet at all times.
- You will get a one-time use shower cap along with a sanitised helmet for the test-ride. You are free to use your own helmet too.
- We hate it but water, coffee or tea will be served only in disposable glasses.
- Payments done digitally via mobile phone is highly recommended to avoid any unnecessary contact with shared devices, documents or currency.

## Once is not enough.
